Special Issue

A Yin and Yang Perspective on the Trust Game: Trust and Reciprocity

Message from the Guest Editor

This Special Issue invites researchers and scholars from diverse backgrounds to contribute original experimental, methodological, review, meta-analytical, or theoretical papers that shed light on our understanding of trust and reciprocity derived from behavioral, psychological, or neural measures collected with the trust game. Pressing, relevant, and timely research contributions are welcome that explore, for example, psychological functions (motivation, affect, and cognition), social preferences and norms, attitudes to risk and aversion, personality traits, and gender and cultural factors—determining commonalities and differences of trust and reciprocity. This unique collection of papers will facilitate, broaden, and improve the ecological validity of the trust game as a prolific instrument in the scientist's toolbox for understanding the interrelatedness of trust and reciprocity.

About the Journal

Message from the Editorial Board

Editors-in-Chief

Prof. Dr. Ulrich Berger
WU Vienna, Department of Economics, Welthandelsplatz 1, 1020 Wien, Austria
Prof. Dr. Kjell Hausken
Faculty of Science and Technology, University of Stavanger, 4036 Stavanger, Norway

Author Benefits

High Visibility:
indexed within Scopus, ESCI (Web of Science), MathSciNet, zbMATH, RePEc, EconLit, EconBiz, and other databases.

Rapid Publication:
manuscripts are peer-reviewed and a first decision is provided to authors approximately 35.8 days after submission; acceptance to publication is undertaken in 6.7 days (median values for papers published in this journal in the second half of 2025).

Recognition of Reviewers:
reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
