

## Special Issue

# Advances in the Theory and Applications of Contests and Tournaments, 2nd Edition

### Message from the Guest Editor

This Special Issue aims at pushing the envelope forward. We encourage the submission of papers underscoring recent advances in the theory and applications of cardinal and ordinal tournaments, along with Tullock-type contests. Building on established contributions as well as on the current momentum, we are interested in new, cutting-edge applications of tournament and contest theory, with a focus on game-theoretic aspects. A few topic areas are highlighted below:

- Prize structure and design of tournaments and contests;
- Contests with uncertain features;
- Dynamic tournaments;
- Repeated, multi-battle, and nested contests;
- Group contests;
- Information disclosure in contests;
- Peer effects;
- Biased contests;
- Conflict networks;
- Coalition formation in contests;
- Innovation and patent contests;
- Rent-seeking and inequality;
- Corporate governance and contests.

---

## About the Journal

### Message from the Editorial Board

---

#### Editors-in-Chief

Prof. Dr. Ulrich Berger

WU Vienna, Department of Economics, Welthandelsplatz 1, 1020 Wien,  
Austria

Prof. Dr. Kjell Hausken

Faculty of Science and Technology, University of Stavanger, 4036  
Stavanger, Norway

---

#### Author Benefits

##### High Visibility:

indexed within Scopus, ESCI (Web of Science),  
MathSciNet, zbMATH, RePEc, EconLit, EconBiz, and other  
databases.

##### Rapid Publication:

manuscripts are peer-reviewed and a first decision is  
provided to authors approximately 35.8 days after  
submission; acceptance to publication is undertaken in 6.7  
days (median values for papers published in this journal in  
the second half of 2025).

##### Recognition of Reviewers:

reviewers who provide timely, thorough peer-review  
reports receive vouchers entitling them to a discount on  
the APC of their next publication in any MDPI journal, in  
appreciation of the work done.
