Special Issue

The Empirics of Behaviour under Risk and Ambiguity

Message from the Guest Editors

The last decades have witnessed several researchers challenging themselves with the modelling and testing of competing theories of choice under risk and ambiguity. The aim of this Special Issue is to follow in these footsteps, welcoming submissions mainly, but not exclusively, on experimental and econometric studies on this topic. The context can be any, including individual choice, group choice and strategic choice. We encourage the submission of studies which focus on the heterogeneity of behaviour under risk and/or ambiguity and its identification. Literature reviews or appraisals of existing literature are also encouraged.

Guest Editors

Prof. Dr. Anna Conte

Department of Management, Sapienza University of Rome, 00185 Rome, Italy

Prof. John Hey

Emeritus Professor of Economics and Statistics and Director of the Centre for Experimental Economics (EXEC), Department of Economics and Related Studies, University of York, UK

Deadline for manuscript submissions

closed (30 September 2019)

About the Journal

Message from the Editorial Board

Editors-in-Chief

Prof. Dr. Ulrich Berger
WU Vienna, Department of Economics, Welthandelsplatz 1, 1020 Wien,
Austria

Prof. Dr. Kjell Hausken
Faculty of Science and Technology, University of Stavanger, 4036
Stavanger, Norway

Author Benefits

High Visibility:
indexed within Scopus, ESCI (Web of Science),
MathSciNet, zbMATH, RePEc, EconLit, EconBiz, and other
databases.

Rapid Publication:
manuscripts are peer-reviewed and a first decision is
provided to authors approximately 32.6 days after
submission; acceptance to publication is undertaken in 6.9
days (median values for papers published in this journal in
the first half of 2025).

Recognition of Reviewers:
reviewers who provide timely, thorough peer-review
reports receive vouchers entitling them to a discount on
the APC of their next publication in any MDPI journal, in
appreciation of the work done.
