5th Anniversary of *Gases*— Feature Papers on Gas to Fuels

Message from the Guest Editors

To celebrate its 5th anniversary, *Gases* is proud to announce a Special Issue dedicated to marking five years of innovations and the latest advances in sustainable fuel development, carbon utilisation, power to X pathways, bio-hybrid approaches with low energy, and low-cost solutions with commercial potential. We welcome high-quality submissions including original research articles, comprehensive review papers, industrial perspectives and technical notes and case studies showcasing pilot- or commercial-scale applications. If your work pushes the boundaries of CO₂ utilisation, renewable fuels, or next-generation energy systems, we encourage you to share it with the global research community through this Special Issue.

Guest Editors

Prof. Dr. Kumar Patchigolla
