

Special Issue

Early Career Award on Gel-Related Science

Message from the Guest Editor

Gels are attractive materials for a range of applications. Hydrogels containing water or showing stability under bio-relevant conditions have been utilised for various bio-applications. There has been a rapid growth in gels research such as polymer gels (chemical gels) with bio-orthogonal cross-linking and physical gels containing biomolecules such as short peptides, proteins, (poly)saccharides, and nucleic acids for sustained release. In this special issue, to cover a wide range of research topics concerning such gels, we will open the invitation to early career researchers who are keen to get recognised for their good work in gels.

Guest Editor

About the Journal

Message from the Editor-in-Chief

Gels (ISSN 2310-2861) is recently established international, open access journal on physical and chemical gel-based materials. The journal aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. General topics include but not limited to synthesis, characterization and applications of new organogels, hydrogels and ionic gels made either from low molecular weight compounds or polymers, composite and hybrid materials where a metal is by some means incorporated into the gel network, and computational studies of these materials in order to provide a better understanding of gelation mechanism. We cordially invite you to consider publishing with us and contribute with your own grain of sand to the advance in this fascinating field.

Editor-in-Chief

Prof. Dr. Esmail Jabbari

Biomimetic Materials and Tissue Engineering Laboratory, Department of Chemical Engineering, University of South Carolina, Columbia, SC 29208, USA

Author Benefits

High visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Polymer Science) / CiteScore - Q1 (Organic Chemistry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 12.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
