

## Special Issue

# Genealogies of Resilience: Family and Cultural Continuity in Colonial Mesoamerica

### Message from the Guest Editor

The purpose of this special issue is to explore cultural transformations and changes in familial structures in Mesoamerica during the colonial period, while closely examining their diverse and far-reaching implications. Our goal is to achieve a deeper and more comprehensive understanding of how social, economic, and cultural factors influenced the varying familial arrangements and experiences across different social classes, genders, ethnic groups, and racial-cultural identities. We are particularly interested in compelling, in-depth case studies that cast light on varieties of familial cultural patterns and examine local realities across different sectors and groups, such as people of African descent, pre (Aztec) and post-Conquest Indigenous groups, and *castas*. These studies should enhance our understanding of how factors such as migration, theoretical aspects of indigenous family issues involving migration, cultural customs, and group-specific norms, e.g., child-rearing, marriage patterns, or household fabric, influenced the preservation or transformation of familial structures and living arrangements throughout the Spanish colonial period.

## About the Journal

### Message from the Editorial Board

*Genealogy* is a scholarly journal that provides a venue for academic, cutting-edge contributions to the interdisciplinary field of genealogy studies. We welcome contributions that examine genealogies of family lineage, use genealogical considerations and methods in examining other historical processes (including migration histories, personal, social, and national identities, and social institutions) or study the construction of genealogical narratives. The journal is also interested in biographical studies and their contribution to the understanding of broader social and historical phenomena.

### Author Benefits

#### High Visibility:

indexed within Scopus, ESCI (Web of Science), and many other databases.

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 25.1 days after submission; acceptance to publication is undertaken in 4.9 days (median values for papers published in this journal in the second half of 2025).

#### Recognition of Reviewers:

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
