

Special Issue

Population Pathways: Intergenerational Migration and Settlement Patterns

Message from the Guest Editor

We seek papers that explore the different ways to illustrate and analyze multi-generational migration and its impact on settlements for a Special Issue of *Genealogy* on "Population Pathways: Intergenerational Migration and Settlement Patterns."

The patterns and processes of human migration have been studied by scholars around the Globe. Their studies have resulted in a nearly endless array of articles and books that aim to discover the main patterns and processes of life-course migration and even multi-generational migration. The purpose of this Special Issue is to illustrate the innovative ways that genealogical data can be used to explain migration patterns and settlement changes, as the size and quality of genealogy datasets grow and technology advances (e.g., Koylu et al. 2025; Kaplanis et al. 2018).

The focus of this Special Issue will build on this research by emphasizing how family connections over time explain migration and settlement patterns; the research scope is broad both spatially and temporally as studies of various places around the globe, from the near past to more distant historical periods, are welcome.

About the Journal

Message from the Editorial Board

Genealogy is a scholarly journal that provides a venue for academic, cutting-edge contributions to the interdisciplinary field of genealogy studies. We welcome contributions that examine genealogies of family lineage, use genealogical considerations and methods in examining other historical processes (including migration histories, personal, social, and national identities, and social institutions) or study the construction of genealogical narratives. The journal is also interested in biographical studies and their contribution to the understanding of broader social and historical phenomena.

Editors-in-Chief

Dr. Athena Leoussi

Department of Languages and Cultures, University of Reading, Reading RG6 6EE, UK

Prof. Dr. Natividad Gutiérrez Chong

Institute of Social Research, National Autonomous University of Mexico, Mexico City 04510, Mexico

Prof. Dr. Joanna Beata Michlic

Author Benefits

High Visibility:

indexed within Scopus, ESCI (Web of Science), and many other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 25.1 days after submission; acceptance to publication is undertaken in 4.9 days (median values for papers published in this journal in the second half of 2025).

Recognition of Reviewers:

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
