

Special Issue

Origin and History of Family through Genetics

Message from the Guest Editor

For this issue, the Editorial Board wishes to discuss and examine how genetic analysis can lead to greater knowledge about the “Family” origin and history, through kinship analysis or lineage analysis. I would like to invite you to contribute an article of your choosing on an aspect or application of genetic analysis to family and kinship.

Papers that study or work on possible family groups from different perspectives and using different genetic markers, both autosomal and lineage markers, will be accepted as long as they provide relevant information on the concept of family in different cultures and historical periods. Bibliographic review papers on the same topic will also be accepted. We invite contributors to discuss and examine how genetic analysis can lead to greater knowledge about the “Family” concept and kinship, whether it is close or not, using both traditional tools and new human genotype methodologies.

About the Journal

Message from the Editorial Board

Genealogy is a scholarly journal that provides a venue for academic, cutting-edge contributions to the interdisciplinary field of genealogy studies. We welcome contributions that examine genealogies of family lineage, use genealogical considerations and methods in examining other historical processes (including migration histories, personal, social, and national identities, and social institutions) or study the construction of genealogical narratives. The journal is also interested in biographical studies and their contribution to the understanding of broader social and historical phenomena.

Editors-in-Chief

Dr. Athena Leoussi

Department of Languages and Cultures, University of Reading, Reading RG6 6EE, UK

Prof. Dr. Natividad Gutiérrez Chong

Institute of Social Research, National Autonomous University of Mexico, Mexico City 04510, Mexico

Prof. Dr. Joanna Beata Michlic

UCL Institute for Advanced Studies, Centre for Collective Violence, Holocaust and Genocide Studies, University College London, London WC1E 6BT, UK

Author Benefits

High Visibility:

indexed within Scopus, ESCI (Web of Science), and many other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 26.3 days after submission; acceptance to publication is undertaken in 4.7 days (median values for papers published in this journal in the first half of 2025).

Recognition of Reviewers:

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
