

Special Issue

Conspiracy Theories: Genealogies and Political Uses

Message from the Guest Editor

The special issue is aimed at presenting an interdisciplinary overview of conspiracy theories especially with regards to their political uses, and the transformations they have undergone over the past few decades, but with some genealogical slanted analyses going further back in time. Compared to the contemporary literature on conspiracy theories, the special issue has the virtue of bringing together scholars from different disciplines, with whom I have already agreed, in dealing with the topic of the political uses of conspiracy theories, though understood in a broad sense. An up-to-date and innovative overview of the phenomenon is thus offered, ranging from political sociology to the history of ideas, from political philosophy to literary criticism, from semiotic analyses to theories of law, from political science to the history of philosophy. The bibliographical references are calibrated for each author and discipline, and they too therefore come to offer a broad and up-to-date overview.

About the Journal

Message from the Editorial Board

Genealogy is a scholarly journal that provides a venue for academic, cutting-edge contributions to the interdisciplinary field of genealogy studies. We welcome contributions that examine genealogies of family lineage, use genealogical considerations and methods in examining other historical processes (including migration histories, personal, social, and national identities, and social institutions) or study the construction of genealogical narratives. The journal is also interested in biographical studies and their contribution to the understanding of broader social and historical phenomena.

Editors-in-Chief

Dr. Athena Leoussi

Department of Languages and Cultures, University of Reading, Reading RG6 6EE, UK

Prof. Dr. Natividad Gutiérrez Chong

Institute of Social Research, National Autonomous University of Mexico, Mexico City 04510, Mexico

Prof. Dr. Joanna Beata Michlic
