Genetics and Evolution of Abiotic Stress Tolerance in Plants

Guest Editor:

Dr. Patrizia Galeffi

Biotechnology and Agroindustry
Division, Casaccia Research
Center, ENEA (Italian National
Agency for New Technologies,
Energy and Sustainable
Economic Development), Via
Anguillarese 301, 00123 Rome,
Italy

Deadline for manuscript
submissions:

closed (15 November 2021)

Message from the Guest Editor

With this Special Issue, I wish to invite the submission of high-quality original research manuscripts or review articles on any topic related to:

“Genetics and Evolution of Abiotic Stress Tolerance in Plants”.

Please submit your research and join in our Special Issue, which will represent an exciting virtual tour through plant molecular responses to the various environmental stresses.

You will find all the necessary information and instructions and a team up to the task at the Genes editorial office.

Message from the Editor-in-Chief

Genes are central to our understanding of biology, and modern advances such as genomics and genome editing have maintained genetics as a vibrant, diverse and fastmoving field. There is a need for good quality, open access journals in this area, and the *Genes* team aims to provide expert manuscript handling, serious peer review, and rapid publication across the whole discipline of genetics. Starting in 2010, the journal is now well established and recognised.

Why not consider *Genes* for your next genetics paper?

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, and other databases.

Journal Rank: JCR - Q2 (*Genetics & Heredity*) / CiteScore - Q2 (*Genetics*)
