

Special Issue

Review Collection on Population and Evolutionary Genetics and Genomics

Message from the Guest Editor

This Special Issue, titled “Review Collection on Population and Evolutionary Genetics and Genomics”, covers studies of genetic diversity and evolution in all organisms. We welcome the submission of studies using any kind of genetic markers as long as they provide interesting novel insights into the biology of the organism or into more general population genetics and evolutionary questions. Studies based on genomic data are particularly welcome. Topics within the scope of this Special Issue include, but are not limited to:

- Genetic polymorphism;
- Geographic variation;
- Gene flow and introgression;
- Selection in natural populations;
- Phylogenetics;
- Metagenomics;
- Ancient DNA.

We look forward to receiving your contribution to this Special Issue, which will exclusively host review-type papers providing valuable insights into all aspects of population and evolutionary genetics and genomics.

Guest Editor

Prof. Dr. Nico M. Van Straalen

About the Journal

Message from the Editor-in-Chief

Genes is central to our understanding of biology, and modern advances such as genomics and genome editing have maintained genetics as a vibrant, diverse and fast-moving field. There is a need for good quality, open access journals in this area, and the *Genes* team aims to provide expert manuscript handling, serious peer review, and rapid publication across the whole discipline of genetics. Starting in 2010, the journal is now well established and recognised. Why not consider *Genes* for your next genetics paper?

Editor-in-Chief

Prof. Dr. Selvarangan Ponnazhagan
Experimental Cancer Therapeutics, The University of Alabama at
Birmingham, 1825 University Blvd., SHEL 814, Birmingham, AL 35294-

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, and other databases.

Journal Rank:

JCR - Q2 (Genetics and Heredity) / CiteScore - Q2 (Genetics (clinical))
