

Special Issue

Recent Advances in the Genetics of Inherited Retinal Degenerative Disease

Message from the Guest Editor

This Special Issue of *Genes* highlights the latest research in IRD genetics, covering emerging disease mechanisms, new gene discoveries, innovative diagnostic tools, and advancements in precision medicine. We welcome the submission of original research articles, reviews, and perspectives from experts in genetics, molecular biology, and ophthalmology. We invite you to contribute to this Special Issue and share your findings to further advance the field of inherited retinal diseases.

Guest Editor

Prof. Dr. Dalia Zaliuniene

Department of Ophthalmology, Medical Academy, Lithuanian University of Health Sciences, Eiveniu 2, LT-50161 Kaunas, Lithuania

Deadline for manuscript submissions

25 September 2025

About the Journal

Message from the Editor-in-Chief

Genes is central to our understanding of biology, and modern advances such as genomics and genome editing have maintained genetics as a vibrant, diverse and fast-moving field. There is a need for good quality, open access journals in this area, and the *Genes* team aims to provide expert manuscript handling, serious peer review, and rapid publication across the whole discipline of genetics. Starting in 2010, the journal is now well established and recognised. Why not consider *Genes* for your next genetics paper?

Editor-in-Chief

Prof. Dr. Selvarangan Ponnazhagan
Department of Pathology, The University of Alabama at Birmingham,
1825 University Blvd, SHEL 814, Birmingham, AL 35294-2182, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, and other databases.

Journal Rank:

JCR - Q2 (Genetics and Heredity) / CiteScore - Q2 (Genetics (clinical))
