The 15th Anniversary of *Genes*: Feature Papers in the "Animal Genetics and Genomics" Section

Message from the Guest Editors

This Special Issue, "The 15th Anniversary of *Genes*: Feature Papers in the Animal Genetics and Genomics Section", aims to bring together high-quality review articles or research articles on all aspects of the most recent advances in interdisciplinary animal genetics fields and to share knowledge between scientists and professionals. It is dedicated to recent advances in the research area of genomics and genetic and comprises a selection of exclusive papers from the Editorial Board Members (EBMs) of the "Animal Genetics and Genomics" Section, as well as invited papers from relevant experts. We also welcome senior experts in the field to make contributions to this Special Issue. We aim to present our Special Issue as an attractive open access publishing platform for genomics and genetic research.

Guest Editors

Prof. Dr. Antonio Figueras

About the Journal

Message from the Editor-in-Chief

Genes is central to our understanding of biology, and modern advances such as genomics and genome editing have maintained genetics as a vibrant, diverse and fast-moving field. There is a need for good quality, open access journals in this area, and the *Genes* team aims to provide expert manuscript handling, serious peer review, and rapid publication across the whole discipline of genetics. Starting in 2010, the journal is now well established and recognised. Why not consider *Genes* for your next genetics paper?

Editor-in-Chief

Prof. Dr. Selvarangan Ponnazhagan
Experimental Cancer Therapeutics, The University of Alabama at
Birmingham, 1825 University Blvd., SHEL 814, Birmingham, AL 35294-

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, and other databases.

Journal Rank:

JCR - Q2 (Genetics and Heredity) / CiteScore - Q2 (Genetics (clinical))
