

Special Issue

Clinical Diagnosis and Analysis of Cancers

Message from the Guest Editor

Most recently, the availability of computational approaches, machine learning, and artificial intelligence has revolutionized our understanding of complex molecular system, allowing the identification of novel biomarkers and therapeutic approaches. This Special Issue, titled “Clinical Diagnosis and Analysis of Cancers”, aims to collect high-quality articles on advances in oncological research with a focus on molecular, omics, and technological approaches.

Guest Editor

Dr. Elisa De Paolis

Molecular and Genomic Diagnostics Unit, Fondazione Policlinico Universitario A. Gemelli IRCCS, Rome, Italy

Deadline for manuscript submissions

25 August 2025

About the Journal

Message from the Editor-in-Chief

Genes is central to our understanding of biology, and modern advances such as genomics and genome editing have maintained genetics as a vibrant, diverse and fast-moving field. There is a need for good quality, open access journals in this area, and the *Genes* team aims to provide expert manuscript handling, serious peer review, and rapid publication across the whole discipline of genetics. Starting in 2010, the journal is now well established and recognised. Why not consider *Genes* for your next genetics paper?

Editor-in-Chief

Prof. Dr. Selvarangan Ponnazhagan
Department of Pathology, The University of Alabama at Birmingham,
1825 University Blvd, SHEL 814, Birmingham, AL 35294-2182, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, and other databases.

Journal Rank:

JCR - Q2 (Genetics and Heredity) / CiteScore - Q2 (Genetics (clinical))
