

Special Issue

Genetics and Genomics in Horticultural Plants

Message from the Guest Editor

We are excited to announce a call for papers for our upcoming Special Issue titled "Genetics and Genomics in Horticultural Plants." This Special Issue aims to explore the latest advancements and innovations in the field of horticultural plant genetics and genomics, providing a comprehensive platform for researchers, scientists and practitioners to share their cutting-edge findings and methodologies. We look forward to receiving your contributions and helping to advance the field of horticultural plant genetics and genomics. For inquiries, please contact us.

Guest Editor

Prof. Dr. Fei Chen

About the Journal

Message from the Editor-in-Chief

Genes is central to our understanding of biology, and modern advances such as genomics and genome editing have maintained genetics as a vibrant, diverse and fast-moving field. There is a need for good quality, open access journals in this area, and the *Genes* team aims to provide expert manuscript handling, serious peer review, and rapid publication across the whole discipline of genetics. Starting in 2010, the journal is now well established and recognised. Why not consider *Genes* for your next genetics paper?

Editor-in-Chief

Prof. Dr. Selvarangan Ponnazhagan
Experimental Cancer Therapeutics, The University of Alabama at
Birmingham, 1825 University Blvd., SHEL 814, Birmingham, AL 35294-
2182, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, and other databases.

Journal Rank:

JCR - Q2 (Genetics and Heredity) / CiteScore - Q2
(Genetics (clinical))
