

Special Issue

Genetics and Epigenetics in Neurological Disorders

Message from the Guest Editor

Towards a better understanding of neurological diseases, we would like to invite authors to publish their research (original articles or reviews) in a Special Issue in *Genes*. We wish to put emphasis on the following themes: (1) Sequencing of underrepresented human ethnicities and the discovery of new gene(s) associated with neurological diseases; (2) Epigenetic modifications (DNA methylation, histone methylation, etc.) associated with neurological disease, including (but not limited to) those caused by environmental factors; (3) Cell and animal modelling of neurological diseases to uncover new pathological mechanisms and treatment strategies; (4) Deciphering cell-autonomous and non-cell-autonomous mechanisms of neurological disease.

Guest Editor

Dr. Julien Philippe

Department of Pathology & Laboratory Medicine, University of California, Irvine, CA, USA

Deadline for manuscript submissions

15 September 2025

About the Journal

Message from the Editor-in-Chief

Genes is central to our understanding of biology, and modern advances such as genomics and genome editing have maintained genetics as a vibrant, diverse and fast-moving field. There is a need for good quality, open access journals in this area, and the *Genes* team aims to provide expert manuscript handling, serious peer review, and rapid publication across the whole discipline of genetics. Starting in 2010, the journal is now well established and recognised. Why not consider *Genes* for your next genetics paper?

Editor-in-Chief

Prof. Dr. Selvarangan Ponnazhagan
Department of Pathology, The University of Alabama at Birmingham,
1825 University Blvd, SHEL 814, Birmingham, AL 35294-2182, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, and other databases.

Journal Rank:

JCR - Q2 (Genetics and Heredity) / CiteScore - Q2 (Genetics (clinical))
