

Special Issue

Non-coding RNAs in Plant Development, Adaptation, and Evolution

Message from the Guest Editor

This Special Issue aims to highlight the latest advances in understanding the functions and mechanisms of non-coding RNAs in plant development, adaptation and evolution. It brings together a collection of original research articles, reviews and perspectives that shed light on the diverse roles of non-coding RNAs in plant biology. We hope that this Special Issue will provide valuable insights into the fascinating world of non-coding RNAs and their impact on plant life.

We would like to express our gratitude to the contributing authors for their valuable contributions, as well as the reviewers for their expert evaluation. We believe that this Special Issue will serve as a valuable resource for researchers, students and enthusiasts interested in exploring the remarkable roles of non-coding RNAs in shaping the development, adaptation and evolution of plants.

About the Journal

Message from the Editor-in-Chief

Genes is central to our understanding of biology, and modern advances such as genomics and genome editing have maintained genetics as a vibrant, diverse and fast-moving field. There is a need for good quality, open access journals in this area, and the *Genes* team aims to provide expert manuscript handling, serious peer review, and rapid publication across the whole discipline of genetics. Starting in 2010, the journal is now well established and recognised. Why not consider *Genes* for your next genetics paper?

Editor-in-Chief

Prof. Dr. Selvarangan Ponnazhagan
Experimental Cancer Therapeutics, The University of Alabama at
Birmingham, 1825 University Blvd., SHEL 814, Birmingham, AL 35294-
2182, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, and other databases.

Journal Rank:

JCR - Q2 (Genetics and Heredity) / CiteScore - Q2 (Genetics (clinical))
