

Special Issue

Genetics, Genomics and Host Response of Chlamydiae

Message from the Guest Editors

This Special Issue from *Genes* entitled "Genetics, Genomics, and Host Response of Chlamydiae" will focus on both bacterial and host-based genetics and genomics from a fundamental, translational, epidemiological, diagnostics, and policy perspective. It will take into account mRNA, protein, genetics including SNPs, genome analyses, serological, and other biomarkers on the basis of genetics and genomics in relation to Chlamydiae and Chlamydia-like infections in bacteria, animals, humans, and the environment. Submission is not only linked to people attending the 13th AACM, but those attending will receive special invites. Submissions will be closed 30th of April 2019, and until then all submitted manuscripts are welcome and will be published as soon as they are accepted. Please consider submitting your work to this Special Issue in *Genes*!

Guest Editors

Prof. Dr. Servaas A. Morré

Institute for Public Health Genomics (IPHG), Department of Genetics and Cell Biology, Research Institute GROW, Faculty of Health, Medicine & Life Sciences, University of Maastricht, 4-6, 6211 LK Maastricht, The Netherlands

Dr. Sander Ouburg

Amsterdam UMC, Vrije Universiteit Amsterdam, Department of Medical Microbiology & Infection Control, Laboratory of Immunogenetics, Amsterdam, The Netherlands

Deadline for manuscript submissions

closed (30 April 2019)

About the Journal

Message from the Editor-in-Chief

Genes is central to our understanding of biology, and modern advances such as genomics and genome editing have maintained genetics as a vibrant, diverse and fast-moving field. There is a need for good quality, open access journals in this area, and the *Genes* team aims to provide expert manuscript handling, serious peer review, and rapid publication across the whole discipline of genetics. Starting in 2010, the journal is now well established and recognised. Why not consider *Genes* for your next genetics paper?

Editor-in-Chief

Prof. Dr. Selvarangan Ponnazhagan
Department of Pathology, The University of Alabama at Birmingham,
1825 University Blvd, SHEL 814, Birmingham, AL 35294-2182, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, and other databases.

Journal Rank:

JCR - Q2 (Genetics and Heredity) / CiteScore - Q2 (Genetics (clinical))
