

## Special Issue

# Genetics and Epigenetics in Endocrine Disorders

### Message from the Guest Editors

This Special Issue welcomes the submission of unpublished original manuscripts (research articles, reviews, and communications) focusing on the molecular mechanisms leading to the development of complex and monogenetic endocrine disorders. We welcome manuscripts with a strong genetic component describing recent advances on all aspects related, but not limited, to the following topics:

- Rare variant analyses and epigenetic studies in complex and monogenic endocrine disorders.
- Functional studies for endocrine-disorder-related genes or variants.
- Gene expression analyses.
- Noncoding RNA analysis and function.
- Genotype–phenotype correlations.

---

### Guest Editors

Dr. Katarina Trebušak Podkrajšek

Institute of Biochemistry and Molecular Genetics, Faculty of Medicine,  
University of Ljubljana, Vrazov trg 2, 1000 Ljubljana, Slovenia

Dr. Primož Kotnik

Department of Endocrinology, Diabetes and Metabolic Diseases,  
Ljubljana University Medical Centre, Ljubljana, Slovenia

---

### Deadline for manuscript submissions

closed (31 March 2022)

## About the Journal

### Message from the Editor-in-Chief

*Genes* is central to our understanding of biology, and modern advances such as genomics and genome editing have maintained genetics as a vibrant, diverse and fast-moving field. There is a need for good quality, open access journals in this area, and the *Genes* team aims to provide expert manuscript handling, serious peer review, and rapid publication across the whole discipline of genetics. Starting in 2010, the journal is now well established and recognised. Why not consider *Genes* for your next genetics paper?

---

### Editor-in-Chief

Prof. Dr. Selvarangan Ponnazhagan  
Department of Pathology, The University of Alabama at Birmingham,  
1825 University Blvd, SHEL 814, Birmingham, AL 35294-2182, USA

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, and other databases.

#### Journal Rank:

JCR - Q2 (Genetics and Heredity) / CiteScore - Q2 (Genetics (clinical))
