

## Special Issue

# Genetics and Genomics in Hereditary Endocrine Disorders

### Message from the Guest Editors

The Special Issue aims at identifying the molecular causes of congenital endocrinopathies, focusing in particular on their constitutional genetic background and its consequences in gene expression. We welcome reviews, perspectives, new methods, and original research papers that will focus on the most recent and significant advances and draw new research frontiers in endocrinology. Genetic studies from diverse human populations, as well as reporting of relevant functional genomics are desired.

### Guest Editors

Prof. Dr. Katarzyna Ziemnicka

Molecular Endocrinology Laboratory, Chair and Department of Endocrinology, Metabolism and Internal Diseases, Poznan University of Medical Sciences, 49th Przybyszewskiego Str., 60-355 Poznan, Poland

Dr. Bartłomiej Budny

Molecular Endocrinology Laboratory, Chair and Department of Endocrinology, Metabolism and Internal Diseases, Poznan University of Medical Sciences, 61-701 Poznań, Poland

## About the Journal

### Message from the Editor-in-Chief

*Genes* is central to our understanding of biology, and modern advances such as genomics and genome editing have maintained genetics as a vibrant, diverse and fast-moving field. There is a need for good quality, open access journals in this area, and the *Genes* team aims to provide expert manuscript handling, serious peer review, and rapid publication across the whole discipline of genetics. Starting in 2010, the journal is now well established and recognised. Why not consider *Genes* for your next genetics paper?

---

### Editor-in-Chief

Prof. Dr. Selvarangan Ponnazhagan  
Department of Pathology, The University of Alabama at Birmingham,  
1825 University Blvd, SHEL 814, Birmingham, AL 35294-2182, USA

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, and other databases.

#### Journal Rank:

JCR - Q2 (Genetics and Heredity) / CiteScore - Q2 (Genetics (clinical))
