

Special Issue

Genetic Determinants of Human Longevity

Message from the Guest Editors

We are pleased to announce you our Special Issue “Genetic Determinants of Human Longevity” focused on the biological and molecular factors able to promote healthy aging and longevity. The aim of this issue is to unify the progress in the analysis of the genetic determinants of human longevity and characterize genetic determinants correlated with a longer lifespan as the maintenance of cellular integrity, inflammation, oxidative stress response, DNA repair and diet impact, to take stock of the situation and point to future directions of the field. We invite you to contribute to this issue with reviews, research articles, short-communications dealing regarding genetic association studies in human longevity now and until the 31 December 2018. Warm regards,

Guest Editors

Dr. Serena Dato

Dr. Mette Sørensen

Prof. Dr. Giuseppina Rose

Deadline for manuscript submissions

closed (31 December 2018)

About the Journal

Message from the Editor-in-Chief

Genes is central to our understanding of biology, and modern advances such as genomics and genome editing have maintained genetics as a vibrant, diverse and fast-moving field. There is a need for good quality, open access journals in this area, and the *Genes* team aims to provide expert manuscript handling, serious peer review, and rapid publication across the whole discipline of genetics. Starting in 2010, the journal is now well established and recognised. Why not consider *Genes* for your next genetics paper?

Editor-in-Chief

Prof. Dr. Selvarangan Ponnazhagan
Department of Pathology, The University of Alabama at Birmingham,
1825 University Blvd, SHEL 814, Birmingham, AL 35294-2182, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, and other databases.

Journal Rank:

JCR - Q2 (Genetics and Heredity) / CiteScore - Q2 (Genetics (clinical))
