

Special Issue

Genetics of Meiotic Chromosome Dynamics

Message from the Guest Editors

In this Special Issue of *Genes*, we welcome reviews, mini-reviews, original research articles, and short communications that put into perspective or advance our understanding of meiotic processes. Of particular interest are overviews or investigations in the areas of chromosome pairing, crossover formation and dynamics, segregation mechanics, and quality control at critical junctures. Since our modern understanding of these processes originates in classical genetic and cytogenetic analyses, we welcome a consideration of the relevant studies underpinning a particular field and when appropriate.

Guest Editors

Dr. Monique Zetka

Department of Biology, McGill University, Montreal, QC H3A 1B1, Canada

Dr. Verena Jantsch

Max Perutz Laboratories, Vienna BioCenter (VBC), University of Vienna, 1030 Vienna, Austria

Deadline for manuscript submissions

closed (10 December 2021)

About the Journal

Message from the Editor-in-Chief

Genes is central to our understanding of biology, and modern advances such as genomics and genome editing have maintained genetics as a vibrant, diverse and fast-moving field. There is a need for good quality, open access journals in this area, and the *Genes* team aims to provide expert manuscript handling, serious peer review, and rapid publication across the whole discipline of genetics. Starting in 2010, the journal is now well established and recognised. Why not consider *Genes* for your next genetics paper?

Editor-in-Chief

Prof. Dr. Selvarangan Ponnazhagan
Department of Pathology, The University of Alabama at Birmingham,
1825 University Blvd, SHEL 814, Birmingham, AL 35294-2182, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, and other databases.

Journal Rank:

JCR - Q2 (Genetics and Heredity) / CiteScore - Q2 (Genetics (clinical))
