Molecular Biomarkers in Solid Tumors

Message from the Guest Editors

Our understanding of the pathogenesis of solid tumors at the molecular level is expanding day by day. Due to unprecedented technological developments, coupled with novel holistic approaches in translational research, a multitude of biomarkers at genomic, transcriptomic, proteomic, and immunologic levels have been discovered. These biomarkers are strongly impacting treatment decision making in patients with solid tumors. This Special Issue in *Genes* on “Molecular Biomarkers in Solid Tumors” will provide a monographic portrait of the current state of knowledge of biomarkers for the clinical management of cancer patients. We especially welcome review articles (either systematic or discursive), original translational research studies, and short communications of preliminary, but significant, experimental results.

Guest Editors

Dr. Nicola Fusco

Prof. Dr. Caterina Marchiò

Dr. Michele Ghidini

Dr. Cristian Scatena

About the Journal

Message from the Editor-in-Chief

Genes is central to our understanding of biology, and modern advances such as genomics and genome editing have maintained genetics as a vibrant, diverse and fast-moving field. There is a need for good quality, open access journals in this area, and the *Genes* team aims to provide expert manuscript handling, serious peer review, and rapid publication across the whole discipline of genetics. Starting in 2010, the journal is now well established and recognised. Why not consider *Genes* for your next genetics paper?

Editor-in-Chief

Prof. Dr. Selvarangan Ponnazhagan
Department of Pathology, The University of Alabama at Birmingham,
1825 University Blvd, SHEL 814, Birmingham, AL 35294-2182, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, and other databases.

Journal Rank:

JCR - Q2 (Genetics and Heredity) / CiteScore - Q2 (Genetics (clinical))
