

## Special Issue

# Selected Papers from the European Drosophila Neurobiology Conference – Neurofly 2020

### Message from the Guest Editors

The current Special Issue invites submissions of original research articles as well as review articles related to the topics of the conference, describing recent advances in all aspects related but not restricted to the following topics:

- Fruit fly (*Drosophila melanogaster*) as a model system
- Genome libraries
- Environmental-gene interaction
- Gene expression
- Glia
- Neural networks
- Genetic analysis
- Synapsis
- Behavior
- Developmental neurobiology
- Evolution
- Metabolism
- Neural diseases and syndromes

All accepted papers from the conference will be entitled 15% discount in the Article Processing Charge.

## About the Journal

### Message from the Editor-in-Chief

*Genes* is central to our understanding of biology, and modern advances such as genomics and genome editing have maintained genetics as a vibrant, diverse and fast-moving field. There is a need for good quality, open access journals in this area, and the *Genes* team aims to provide expert manuscript handling, serious peer review, and rapid publication across the whole discipline of genetics. Starting in 2010, the journal is now well established and recognised. Why not consider *Genes* for your next genetics paper?

---

### Editor-in-Chief

Prof. Dr. Selvarangan Ponnazhagan  
Department of Pathology, The University of Alabama at Birmingham,  
1825 University Blvd, SHEL 814, Birmingham, AL 35294-2182, USA

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, and other databases.

#### Journal Rank:

JCR - Q2 (Genetics and Heredity) / CiteScore - Q2 (Genetics (clinical))
