Special Issue

Primate Phylogeny and Genetics

Message from the Guest Editors

New phylogenetic tools and population genetics methods have been developed and vastly advanced over the last decade. We encourage submissions of unpublished original manuscripts (research articles, reviews, and communications) on non-human primates with a strong genetic or genomic component describing recent advances on all aspects related, but not limited to, the following topics: phylogenetic inference, population genetics, genetic diversity, local adaptation, genetic structure, phylogeographic inference, demographic modeling, landscape genetics, and hybridization.

Guest Editors

Prof. Dr. Ute Radespiel

Institute of Zoology, University of Veterinary Medicine Hannover, 30559 Hannover, Germany

Prof. Dr. Christian Roos

Gene Bank of Primates and Primate Genetics Laboratory, German Primate Center, Leibniz Institute for Primate Research, 37077 Goettingen, Germany

Deadline for manuscript submissions

closed (31 December 2022)

About the Journal

Message from the Editor-in-Chief

Genes is central to our understanding of biology, and modern advances such as genomics and genome editing have maintained genetics as a vibrant, diverse and fast-moving field. There is a need for good quality, open access journals in this area, and the Genes team aims to provide expert manuscript handling, serious peer review, and rapid publication across the whole discipline of genetics. Starting in 2010, the journal is now well established and recognised. Why not consider Genes for your next genetics paper?

Editor-in-Chief

Prof. Dr. Selvarangan Ponnazhagan

Department of Pathology, The University of Alabama at Birmingham, 1825 University Blvd, SHEL 814, Birmingham, AL 35294-2182, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, and other databases.

Journal Rank:

JCR - Q2 (Genetics and Heredity) / CiteScore - Q2 (Genetics (clinical))
