## Feature Papers in Microbial Genetics in 2024

### Message from the Guest Editor

This Special Issue, “Feature Papers in Microbial Genetics in 2024”, aims to gather together high-quality research articles, review articles, and communications on all aspects of microbial genetics, at the level of both individual microorganisms and microbial communities, from various environments and hosts, and including ancient microbes. We welcome submissions of manuscripts from editorial board members and outstanding scholars invited by the editorial board and editorial office. We aim to develop our Section into an attractive open access publishing platform for microbial genetics research.

## About the Journal

### Message from the Editor-in-Chief

*Genes* is central to our understanding of biology, and modern advances such as genomics and genome editing have maintained genetics as a vibrant, diverse and fast-moving field. There is a need for good quality, open access journals in this area, and the *Genes* team aims to provide expert manuscript handling, serious peer review, and rapid publication across the whole discipline of genetics. Starting in 2010, the journal is now well established and recognised. Why not consider *Genes* for your next genetics paper?

---

### Editor-in-Chief

Prof. Dr. Selvarangan Ponnazhagan  
Department of Pathology, The University of Alabama at Birmingham,  
1825 University Blvd, SHEL 814, Birmingham, AL 35294-2182, USA

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, and other databases.

#### Journal Rank:

JCR - Q2 (Genetics and Heredity) / CiteScore - Q2 (Genetics (clinical))
