

Special Issue

Feature Papers in Genes & Environments

Message from the Guest Editors

This Special Issue, entitled “Genes & Environments” will represent a collection of high-quality, original research or review articles focusing on recent advances in the study of gene-environment interaction, including but not limited to the molecular mechanisms by which genomes and environments interact, the phenotypic effects of gene-environment interaction, and novel analytical methods or approaches. We would like to invite submissions from Editorial Board Members of Genes to contribute pioneering papers reflecting the latest progress in their research fields, as well as invited papers from relevant experts, and encourage invitees to extend this opportunity to colleagues with expertise in relevant to “Genes & Environments”. With your contributions, we aim to represent our Section as an attractive open-access publishing platform for cutting-edge research related to gene-environment interaction.

Guest Editors

Dr. Jean Molinier

Institut de Biologie Moleculaire des Plantes, Strasbourg, France

Prof. Dr. Colleen Glyde Julian

School of Medicine, University of Colorado, Denver, CO, USA

Deadline for manuscript submissions

closed (20 March 2023)

About the Journal

Message from the Editor-in-Chief

Genes is central to our understanding of biology, and modern advances such as genomics and genome editing have maintained genetics as a vibrant, diverse and fast-moving field. There is a need for good quality, open access journals in this area, and the *Genes* team aims to provide expert manuscript handling, serious peer review, and rapid publication across the whole discipline of genetics. Starting in 2010, the journal is now well established and recognised. Why not consider *Genes* for your next genetics paper?

Editor-in-Chief

Prof. Dr. Selvarangan Ponnazhagan
Department of Pathology, The University of Alabama at Birmingham,
1825 University Blvd, SHEL 814, Birmingham, AL 35294-2182, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, and other databases.

Journal Rank:

JCR - Q2 (Genetics and Heredity) / CiteScore - Q2 (Genetics (clinical))
