

Special Issue

Equine Genetics and Genomics

Message from the Guest Editor

The study of equine genetics has dramatically advanced with the aid of novel genomic techniques. This Special Issue, headed by experts at the forefront of research in this field, focuses on the latest findings on equine genetics and genomics, covering issues of equal concern to practitioners and academics. Please remember to indicate that your manuscript is intended for this Special Issue during the submission process. All manuscripts will be peer-reviewed according to journal policy. Potential topics include, but are not limited to, the following: the evolution of equids, gene regulation, and gene expression and function.

Guest Editor

Dr. Chunjiang Zhao

About the Journal

Message from the Editor-in-Chief

Genes is central to our understanding of biology, and modern advances such as genomics and genome editing have maintained genetics as a vibrant, diverse and fast-moving field. There is a need for good quality, open access journals in this area, and the *Genes* team aims to provide expert manuscript handling, serious peer review, and rapid publication across the whole discipline of genetics. Starting in 2010, the journal is now well established and recognised. Why not consider *Genes* for your next genetics paper?

Editor-in-Chief

Prof. Dr. Selvarangan Ponnazhagan
Department of Pathology, The University of Alabama at Birmingham,
1825 University Blvd, SHEL 814, Birmingham, AL 35294-2182, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, and other databases.

Journal Rank:

JCR - Q2 (Genetics and Heredity) / CiteScore - Q2 (Genetics (clinical))
