Special Issue

Bacterial Genetics and Ecology Inspire the Biotechnology of an Evolving Global Economy

Message from the Guest Editors

The eleventh conference of "BAGECO" will be held in the island of Corfu in Greece next May 2011 (www.bageco11.org). Following the tradition of BAGECO meetings, in the program of BAGECO11 it has been included themes like Molecular Biology for the Environment, The Microbial Environment and Human Health, Micro-environment and Plant Health, Marine Ecosystems and Health. In addition, a full day session on Synthetic Biology as roundtable discussion has been organized with excellent invited speakers who will cover all issues concerning the new avenues which Synthetic Biology opens for Microbial

Ecology/Genetics/Biotechnology and opinions about those issues that affect science, technology and socioeconomics. Finally, the Third Generation Sequencing Technology will be covered in the corresponding session.

Guest Editors

Prof. Dr. Amalia D. Karagouni

Microbiology Group, Department of Botany, School of Sciences, Faculty of Biology, National and Kapodistrian University of Athens, Panepistimiopolis, 157 01 Athens, Greece

Prof. Dimitris G. Hatzinikolaou

Enzyme and Microbial Biotechnology Unit, Department of Biology, National and Kapodistrian University of Athens, Athens, Greece

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

Genes is central to our understanding of biology, and modern advances such as genomics and genome editing have maintained genetics as a vibrant, diverse and fast-moving field. There is a need for good quality, open access journals in this area, and the Genes team aims to provide expert manuscript handling, serious peer review, and rapid publication across the whole discipline of genetics. Starting in 2010, the journal is now well established and recognised. Why not consider Genes for your next genetics paper?

Editor-in-Chief

Prof. Dr. Selvarangan Ponnazhagan

Department of Pathology, The University of Alabama at Birmingham, 1825 University Blvd, SHEL 814, Birmingham, AL 35294-2182, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, and other databases.

Journal Rank:

JCR - Q2 (Genetics and Heredity) / CiteScore - Q2 (Genetics (clinical))
