

Special Issue

Genetics of Circadian Clocks in Eukaryotic Organisms

Message from the Guest Editor

This Special Issue on “Genetics of Circadian Clocks in Eukaryotic Organisms” is intended to provide a platform for a wide range of reviews and research articles related to the genetics, molecular biology, and genomics of several eukaryotic model organisms. The progress in this area of research promises to shape the future of circadian rhythm research and ultimately offer novel chronotherapeutic avenues in clinical practice. Please contact the with questions related to the scope of this Special Issue.

Guest Editor

Dr. Andrew C. Liu

About the Journal

Message from the Editor-in-Chief

Genes is central to our understanding of biology, and modern advances such as genomics and genome editing have maintained genetics as a vibrant, diverse and fast-moving field. There is a need for good quality, open access journals in this area, and the *Genes* team aims to provide expert manuscript handling, serious peer review, and rapid publication across the whole discipline of genetics. Starting in 2010, the journal is now well established and recognised. Why not consider *Genes* for your next genetics paper?

Editor-in-Chief

Prof. Dr. Selvarangan Ponnazhagan
Department of Pathology, The University of Alabama at Birmingham,
1825 University Blvd, SHEL 814, Birmingham, AL 35294-2182, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, and other databases.

Journal Rank:

JCR - Q2 (Genetics and Heredity) / CiteScore - Q2 (Genetics (clinical))
