

## Special Issue

# Early Career Scientists' (ECS) Contributions to Geographies

### Message from the Guest Editor

The Special Issue of *Geographies* aims to examine the scientific contribution of Early Career Researchers exploring all interdisciplinary aspects of the Geographical Sciences. Each manuscript will be peer-reviewed with at least two referees, in accordance with the peer review policy of the journal. Manuscripts are reviewed as quickly as possible, with an editorial decision usually reached within 3 to 4 weeks following submission. As this Special Issue is dedicated to researchers at the beginning of their academic career, it aims to make the publication process as transparent as possible and to give additional guidance on how to address reviewers' comments. Nonetheless, the research work will be assessed as rigorously as any other paper submitted to *Geographies*.

### Guest Editor

Dr. Adriano Ribolini

Department of Earth Sciences, University of Pisa, 56126 Pisa, Italy

### Deadline for manuscript submissions

closed (31 December 2022)

## About the Journal

### Message from the Editor-in-Chief

*Geographies* is an open access, cross-disciplinary journal that covers the physical features of the earth and its atmosphere, also including the human dimension. The scope of this journal is extremely wide, from the study of the various components that make up our planet, to the tools used to conduct these studies, to the human impacts that affect us all. All of these issues can be addressed at a variety of spatial and temporal scales from global to local and from a single point in time through eons. *Geographies* promotes a quest for knowledge and to finding solutions to many of our most pressing and timely issues to benefit our world.
