Message from the Guest Editors

Dear Colleagues,

The 2019 IEEE International Workshop on Metrology for Agriculture and Forestry will be held in Portici, Italy, 24–26 October 2019. Authors of paper related to Geosciences presented at the Workshop are invited to submit extended versions of their work to the Special Issue for publication, highlighting the geoscientific approach of their research.

MetroAgriFor intends to create an active and stimulating forum where academics, researchers, and industry experts in the field of measurement and data processing techniques for Agriculture, Forestry, and Food can meet and share new advances and research results. Attention is given but not limited to new technologies for agriculture and forestry environment monitoring, food quality monitoring, metrology-assisted production in agriculture, forestry and food industries, sensors and associated signal conditioning for agriculture and forestry, calibration methods for electronic tests, and measurement for environmental and food applications.

Message from the Editor-in-Chief

Understanding the Earth's origin and its bio-geological evolution, the multiple implications of the geosciences (as a coherent set of interconnected disciplines), and the sociocultural and ethical interdisciplinary approaches, will be crucial for a better understanding of Nature, and also for undertaking scientifically based political decisions.

We are committed to drive *Geosciences* to a position in which it is recognized for its high-quality, cutting-edge research and scientific influence, and strongly encourage and invite your participation and manuscripts.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [ESCI \(Web of Science\)](#), [GeoRef](#), [Astrophysics Data System](#), and [other databases](#).

Journal Rank: CiteScore - Q1 (*General Earth and Planetary Sciences*)
