

Special Issue

Management of Natural Disaster in Coastal Zones

Message from the Guest Editors

As , we are pleased to announce this Special Issue, entitled “Management of Natural Disasters in Coastal Zones”. This Special Issue will present a collection of quality reviews and original papers from both experienced and emerging researchers, presenting new knowledge, as well as contemporary, innovative methodologies for natural disaster management in coastal Zones.

This Special Issue focuses on providing practical solutions and mitigation methods for the management of hazards, such as the following:

Geological hazards;
Climate-change-related hazards;
Hydro-meteorological hazards.

This issue also focuses on offering tools to the civil protection authorities for:

Mitigation, Alertness, Response and Recovery
Coastal management techniques and strategies for the mitigation of natural hazards impacts: soft engineering methods, response plans, alertness through raising awareness and education, etc.;

It is now vital to make coastal communities resilient to natural hazards and protect them from the dangerous consequences of such hazards.

Guest Editors

Prof. Dr. Niki Evelpidou
Dr. Spyridon Mavroulis
Dr. Saitis Giannis
Dr. Marilia Gogou

About the Journal

Message from the Editor-in-Chief

Understanding the Earth's origin and its bio-geological evolution, the multiple implications of the geosciences (as a coherent set of interconnected disciplines), and the sociocultural and ethical interdisciplinary approaches, will be crucial for a better understanding of Nature, and also for undertaking scientifically based political decisions.

We are committed to drive *Geosciences* to a position in which it is recognized for its high-quality, cutting-edge research and scientific influence, and strongly encourage and invite your participation and manuscripts.

Editor-in-Chief

Prof. Dr. Alberto G. Fairén

1. Centro de Astrobiología, CSIC-INTA, Madrid, Spain
2. Department of Astronomy, Cornell University, Ithaca, NY, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science), GeoRef, Astrophysics Data System, and other databases.

Journal Rank:

CiteScore - Q1 (General Earth and Planetary Sciences)
