

## Special Issue

# Advanced Studies in Quaternary Stratigraphy and Paleogeography

### Message from the Guest Editors

We invite submissions to this Special Issue—which seeks to advance the field of Quaternary stratigraphy and paleogeography by presenting innovative research that addresses fundamental questions in the discipline. We welcome studies employing novel methodologies and interdisciplinary perspectives to reconstruct sedimentary histories, paleoenvironments, and landscape evolution. This topic naturally bridges multiple fields—including geology, paleontology, geography, geomorphology, paleoclimatology, and archeology—and strongly aligns with the journal's commitment to interdisciplinary earth sciences.

---

### Guest Editors

Dr. Xinwen Xu

College of Urban and Environmental Sciences, Northwest University,  
Xi'an, China

Dr. Hui Zhao

State Key Laboratory of Loess and Quaternary Geology, Institute of  
Earth Environment, Chinese Academy of Sciences, Xi'an 710061, China

---

### Deadline for manuscript submissions

31 December 2026

## About the Journal

### Message from the Editor-in-Chief

Understanding the Earth's origin and its bio-geological evolution, the multiple implications of the geosciences (as a coherent set of interconnected disciplines), and the sociocultural and ethical interdisciplinary approaches, will be crucial for a better understanding of Nature, and also for undertaking scientifically based political decisions.

We are committed to drive *Geosciences* to a position in which it is recognized for its high-quality, cutting-edge research and scientific influence, and strongly encourage and invite your participation and manuscripts.

---

### Editor-in-Chief

Prof. Dr. Alberto G. Fairén

1. Centro de Astrobiología, CSIC-INTA, Madrid, Spain
2. Department of Astronomy, Cornell University, Ithaca, NY, USA

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, ESCI (Web of Science), GeoRef, Astrophysics Data System, and other databases.

#### Journal Rank:

CiteScore - Q1 (General Earth and Planetary Sciences)
