

Special Issue

The Application of Accessory Mineral Geochemistry in Ore Deposit Studies

Message from the Guest Editors

This Special Issue seeks to compile cutting-edge research applying the in situ microanalysis of accessory minerals to ore deposit studies, with particular emphasis on innovative approaches pioneered by early-career researchers.

Guest Editors

Prof. Dr. Lei Liu
Dr. Jingya Cao
Dr. Youyue Lu

Deadline for manuscript submissions

15 September 2026

About the Journal

Message from the Editor-in-Chief

Understanding the Earth's origin and its bio-geological evolution, the multiple implications of the geosciences (as a coherent set of interconnected disciplines), and the sociocultural and ethical interdisciplinary approaches, will be crucial for a better understanding of Nature, and also for undertaking scientifically based political decisions.

We are committed to drive *Geosciences* to a position in which it is recognized for its high-quality, cutting-edge research and scientific influence, and strongly encourage and invite your participation and manuscripts.

Editor-in-Chief

Prof. Dr. Alberto G. Fairén

1. Centro de Astrobiología, CSIC-INTA, Madrid, Spain
2. Department of Astronomy, Cornell University, Ithaca, NY, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science), GeoRef, Astrophysics Data System, and other databases.

Journal Rank:

CiteScore - Q1 (General Earth and Planetary Sciences)
