

Special Issue

Recent Advances in Lunar Studies

Message from the Guest Editors

The journal *Geosciences* is accepting papers for a Special Issue related to recent advances in studies of the Moon. Since the Apollo era, sample studies, remote analyses, and dynamical models continue to tease out details related to the Moon's formation and evolution. Additionally, the international lunar science community is eager to continue its presence on the Moon, as evidenced by recent, upcoming, and future lunar missions. All of these topics are of great interest to the broader geoscience community. The Special Issue welcomes papers that describe studies related to any of the above topics and will be an outlet for rapid, accessible, and peer-reviewed publications. The editors especially welcome papers from young investigators.

Guest Editors

Dr. Nicolle E. B. Zellner

Department of Physics, Albion College, Albion, MI, USA

Dr. Karen Cahill

Planetary Science Institute and JHU Applied Physics Laboratory, Silver Spring, MD, USA

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

Understanding the Earth's origin and its bio-geological evolution, the multiple implications of the geosciences (as a coherent set of interconnected disciplines), and the sociocultural and ethical interdisciplinary approaches, will be crucial for a better understanding of Nature, and also for undertaking scientifically based political decisions.

We are committed to drive *Geosciences* to a position in which it is recognized for its high-quality, cutting-edge research and scientific influence, and strongly encourage and invite your participation and manuscripts.

Editor-in-Chief

Prof. Dr. John C. Eichelberger

Alaska Center for Energy and Power, University of Alaska Fairbanks,
Fairbanks, AK, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science), GeoRef, Astrophysics Data System, and other databases.

Journal Rank:

CiteScore - Q1 (General Earth and Planetary Sciences)
