

Special Issue

Exploring and Modeling the Magma-Hydrothermal Regime II

Message from the Guest Editors

The previous volume of “[Exploring and Modeling the Magma-Hydrothermal Regime](#)” is an attractive Issue attaining high achievement in the fields of science and engineering. It covered a wide range of academic fields related to magma and hydrothermal processes in the Earth. We would like to summarize and publish an additional volume on magma-hydrothermal activities in *Geosciences*.

Guest Editors

Prof. Dr. Noriyoshi Tsuchiya

Prof. Dr. Alexey Kiryukhin

Prof. Dr. Ben Kennedy

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

Understanding the Earth's origin and its bio-geological evolution, the multiple implications of the geosciences (as a coherent set of interconnected disciplines), and the sociocultural and ethical interdisciplinary approaches, will be crucial for a better understanding of Nature, and also for undertaking scientifically based political decisions.

We are committed to drive *Geosciences* to a position in which it is recognized for its high-quality, cutting-edge research and scientific influence, and strongly encourage and invite your participation and manuscripts.

Editor-in-Chief

Prof. Dr. John C. Eichelberger

Alaska Center for Energy and Power, University of Alaska Fairbanks,
Fairbanks, AK, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science), GeoRef, Astrophysics Data System, and other databases.

Journal Rank:

CiteScore - Q1 (General Earth and Planetary Sciences)
