# **Special Issue**

# New Insights into the Stratigraphic Setting of Mediterranean Continental Shelves and Slopes

### Message from the Guest Editor

I invite you to contribute in a Special Volume addressed at studying the stratigraphic setting of Mediterranean continental shelves and slopes through the integration of different geological data and methodologies, including seismic stratigraphy, sequence stratigraphy, basin analysis, tephrostratigraphy and facies analysis and sedimentology. Although Mediterranean shelves and slopes have been deeply studied, I am firmly convinced that more geological data will be available through integrated stratigraphic methodologies, if shown in this volume. Both contributions addressed to marine geology and field geological data are welcome.

### **About the Journal**

### Message from the Editor-in-Chief

Understanding the Earth's origin and its bio-geological evolution, the multiple implications of the geosciences (as a coherentset of interconnected disciplines), and the sociocultural and ethical interdisciplinary approaches, will be crucial for a better understanding of Nature, and also for undertaking scientificallybased political decisions.

We are committed to drive *Geosciences* to a position in which it is recognized for its high-quality, cutting-edge research and scientific influence, and strongly encourage and invite your participation and manuscripts.

### **Editor-in-Chief**

Prof. Dr. John C. Eichelberger

Alaska Center for Energy and Power, University of Alaska Fairbanks, Fairbanks, AK, USA

#### **Author Benefits**

### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

### **High Visibility:**

indexed within Scopus, ESCI (Web of Science), GeoRef, Astrophysics Data System, and other databases.

### Journal Rank:

CiteScore - Q1 (General Earth and Planetary Sciences)
