Cardiovascular Health in Older Adults

Message from the Guest Editor

Cardiovascular diseases are common in older adults, driving the onset of adverse events with cognitive and physical impairments. In this scenario, managing cardiovascular complications is pivotal to avoiding adverse events and/or frailty. Thus, this Special Issue aims to evaluate the role of cardiovascular health in older adults, focusing on cardiovascular diseases. On these grounds, both clinical as well as preclinical studies and reviews are welcome.

About the Journal

Message from the Editor-in-Chief

Our new journal is launched to serve geriatrics specialists and colleagues from other disciplines as an interface between theory and clinical practice. Pushing the boundaries of the discipline, I kindly invite you to consider publishing your current work in *Geriatrics*. We have chosen the format of an open access journal to provide all interested parties with a platform for their basic research and health care studies as well. For details on the submission process or any other matter, please visit the journal website. I hope to handle your contribution to *Geriatrics* soon to publish innovative, relevant, thought provoking ideas.

Editor-in-Chief

Prof. Dr. Ralf Lobmann

Department of Endocrinology, Diabetology and Geriatrics, Clinical Centre Stuttgart–Katharinenhospital, Kriegsbergstrasse 60, D70174 Stuttgart, Germany
