

Special Issue

Geriatric Care Models

Message from the Guest Editor

I am serving as for a Special Issue of the journal *Geriatrics* (<http://www.mdpi.com/journal/geriatrics>, ISSN 2308-3417) on the subject of "Geriatric Care Models". Innovative geriatric care models which demonstrate improved outcomes in health and well-being, care utilization, and cost moderation can be scaled to enhance care generally. Successful care models can involve the service setting, care delivery, and organizational culture. It is my pleasure to invite you to submit an invited feature article on the topic of Geriatric Care Models. The manuscript may be either a full paper or a communication based on your own research in this area, or may be a focused review article on some aspect of the subject. Please note that for your contribution, all article processing charges will be *waived*.

The submission deadline is *30 June 2018*. If you require an extension, just advise us of a more realistic deadline. We encourage authors to send a short abstract or tentative title to the Editorial Office in advance (geriatrics@mdpi.com).

Thanking you in anticipation.

With best wishes

MD

About the Journal

Message from the Editor-in-Chief

Our new journal is launched to serve geriatrics specialists and colleagues from other disciplines as an interface between theory and clinical practice. Pushing the boundaries of the discipline, I kindly invite you to consider publishing your current work in *Geriatrics*. We have chosen the format of an open access journal to provide all interested parties with a platform for their basic research and health care studies as well. For details on the submission process or any other matter, please visit the journal website. I hope to handle your contribution to *Geriatrics* soon to publish innovative, relevant, thought provoking ideas.

Editor-in-Chief
