

Special Issue

SARS-CoV-2 Infections in the Elderly

Message from the Guest Editors

Whilst SARS-CoV-2 has put the daily activities in many communities on hold, research communities are working hard to solve the issue. There will be many consequences of this outbreak—both short- and potential long-term medical, social, economic, and lifestyle impacts. We are interested in publishing any type of articles in fundamental sciences, medical sciences, pharmacological sciences (including drug discovery), health services research (including service re-design, service evaluation, and quality improvement projects), case reports and case series reporting new and novel learning points, management strategies, and clinical trials. We are also interested in receiving geriatric nursing studies in relation to this crisis, as well as social science (social care or the interface between health and social care, other health related issues due to social isolation, etc.) and health economics studies.

Keywords

- COVID-19
- elderly
- health and social care

Guest Editors

About the Journal

Message from the Editor-in-Chief

Our new journal is launched to serve geriatrics specialists and colleagues from other disciplines as an interface between theory and clinical practice. Pushing the boundaries of the discipline, I kindly invite you to consider publishing your current work in *Geriatrics*. We have chosen the format of an open access journal to provide all interested parties with a platform for their basic research and health care studies as well. For details on the submission process or any other matter, please visit the journal website. I hope to handle your contribution to *Geriatrics* soon to publish innovative, relevant, thought provoking ideas.

Editor-in-Chief

Prof. Dr. Ralf Lobmann

Department of Endocrinology, Diabetology and Geriatrics, Clinical Centre Stuttgart–Katharinenhospital, Kriegsbergstrasse 60, D70174 Stuttgart, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.
