

Special Issue

Hip Fracture in the Elderly: An Evolving Process of Care for an Increasingly Frail Population

Message from the Guest Editor

The scope of this Special Issue is to gather quality research about hip fracture care, treatment, perioperative assessment, and outcomes, with a focus on elderly patients, especially those affected by comorbidities, frailty, and geriatric syndromes. Particular interest will be devoted to interdisciplinary research, aimed at improving the care process with a rational allocation of local resources, in the context of progressive aging that the world is facing. Case reports or case series of particular interest will also be considered for publication.

- hip fracture in frail elderly
- epidemiology
- hip fracture in the world
- risk factors
- orthogeriatric co-management
- orthogeriatric models of care
- assessment of geriatric patients experiencing hip fracture
- surgical treatment of hip fracture
- complications in the elderly with hip fracture
- perioperative care
- treatment outcomes
- quality of life after hip fracture
- orthogeriatric research
- innovation in hip fracture care

About the Journal

Message from the Editor-in-Chief

Our new journal is launched to serve geriatrics specialists and colleagues from other disciplines as an interface between theory and clinical practice. Pushing the boundaries of the discipline, I kindly invite you to consider publishing your current work in *Geriatrics*. We have chosen the format of an open access journal to provide all interested parties with a platform for their basic research and health care studies as well. For details on the submission process or any other matter, please visit the journal website. I hope to handle your contribution to *Geriatrics* soon to publish innovative, relevant, thought provoking ideas.

Editor-in-Chief

Prof. Dr. Ralf Lobmann

Department of Endocrinology, Diabetology and Geriatrics, Clinical Centre Stuttgart–Katharinenhospital, Kriegsbergstrasse 60, D70174 Stuttgart, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science), PubMed, PMC, and other databases.

Journal Rank:

CiteScore - Q2 (Health (Social Science))
