## Feature Papers in *Grasses*

### Message from the Guest Editor

It is our pleasure to announce a Special Issue in *Grasses*, entitled "Feature Papers in *Grasses*". This Special Issue aims to highlight the various research findings in the field represented by excellent scholars related to Grasses, as well as the outstanding questions. We believe that it is a good opportunity for other scholars in related fields to increase their knowledge of and select our journal. All scholars are invited to contribute original research articles or reviews matching the aim and scope of the Journal, which will all be peer-reviewed before acceptance for publication.

# About the Journal

### Message from the Editor-in-Chief

Forage crops are more than just livestock feed; they are a cornerstone of sustainable agriculture and ecosystem health. *Grasses* explores the vital role of these plants in soil regeneration, biodiversity conservation, and carbon sequestration. From cutting-edge research to practical farming insights, *Grasses* is a useful tool to explore how forage crops contribute to resilient cropping systems and a greener planet. Join us in discovering the power of forages beyond the pasture!
