Message from the Collection Editors

Dear Colleagues,

We are sufficiently motivated and proud to invite skilled scientists with an interest in global and integrative healthcare to present their studies in peer-reviewed papers in our Collection Project. Cross-disciplinary research will be important in the future. This issue will be open for all possible topics related to global health, e.g., reproductive health, occupational health, “forgotten health problems”, child and adolescent health, and infectious and chronic diseases, such as cancer, COVID-19 infection, obesity, diabetes, and metabolic, neurodegenerative, and immunodeficiency diseases. Thus, approaches on acupuncture effects, phytotherapy, decoctions, nutritional or dietetic supplements, Asian or Western physical and breathing exercises, as well as in silico intelligence medicine studies using bioresonance integrators are welcome.

The journal has excellent reviewers and adequate research specialists, with a rapidly increasing impact as well as a quick and thorough review process. Thus, you are welcome to join us in this interesting Project Collection.
