Message from the Guest Editor

Dear Colleagues,

Gynecologic oncology is a rapidly evolving field. The past few years and months have been characterized by “game-changing” improvements in the prevention, diagnosis and management of gynecologic malignancies. Thanks to the HPV vaccine, we now have a potential tool to prevent the majority of cervical (and many vulvar) cancers. However, with fewer than 10% of the target population being vaccinated, we are far from eliminating cervical cancer.

One of the driving factors in (gynecologic) cancer research that has enabled us to complete studies in a much shorter time is collaboration across institutions.

This Special Issue of Healthcare seeks original articles, reviews, commentaries and short reports on Advances in Gynecologic Oncology. This Issue aims to publish manuscripts on developments in the prevention, epidemiology, diagnosis and management of gynecologic cancer, each of which will serve as a piece of the puzzle to further improve care for women with gynecologic malignancies.

Message from the Editor-in-Chief

Healthcare is an international, peerreviewed, open access, multidisciplinary journal. Original research articles, short communications, review articles, and symposium highlights are welcomed.

Healthcare hopes to influence global health and disease aspects, and hopes to gain high visibility and acceptance by the scientific and healthcare community and will dedicate itself to covering special and specific topics in special issues.

We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), PubMed, PMC, and other databases.

Journal Rank: JCR - Q2 (Health Policy and Services) / CiteScore - Q1 (Leadership and Management)
