Department of Health, Aarhus
University, Nordre Ringgade 1,
8000 Aarhus C, Denmark

Deadline for manuscript
submissions:

closed (31 October 2024)

Message from the Guest Editors

Climate change and mental health are two of the most significant and pressing challenges facing societies across the world. This Special Issue will be devoted to publishing research that can shed light on the multiple ways by which climate change and mental health are interrelated. We also welcome research on how to mitigate the negative mental health impacts of climate change, and novel evidence-based interventions promoting human and planetary resilience and wellbeing. We encourage studies or commentaries on sustainable development for promoting planetary and mental health.

This could be through, but is not limited to

1. stress or trauma caused by rising global temperatures and sea-levels and extreme weather events
2. psychological distress caused by the awareness and experiences of escalating climate threats and climate inaction
3. nature-based- and Virtual Reality (VR) solutions
4. complex interventions addressing climate anxiety and grief
5. facilitating supportive communities for climate action and mental health
6. social justice
7. climate change awareness
8. life style changes
9. civic engagement in promoting both planetary and human thriving and wellbeing

Evangelista**

Sue & Bill Gross School of
Nursing, University of California,
Irvine, CA 92697, USA

Message from the Editor-in-Chief

Healthcare is an international, peerreviewed, open access, multidisciplinary journal. Original research articles, short communications, review articles, and symposium highlights are welcomed.

Healthcare hopes to influence global health and disease aspects, and hopes to gain high visibility and acceptance by the scientific and healthcare community and will dedicate itself to covering special and specific topics in special issues.

We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), PubMed, PMC, and other databases.

Journal Rank: JCR - Q2 (Health Policy and Services) / CiteScore - Q1 (Leadership and Management)
