Jamestown, Jamestown STHL 1ZZ, Saint Helena

**Prof. Dr. Shammi Ramlakhan**

Sheffield Children's Hospital,  
Sheffield S10 2TH, UK

Deadline for manuscript submissions:

**31 December 2024**

### Message from the Guest Editors

Dear Colleagues,

Emergency medicine relies on specialised expertise and facilities to prevent, diagnose, monitor, and manage acute and urgent illnesses and injuries in all age groups.

Recent innovations in artificial intelligence have provided exciting opportunities in emergency medicine for diagnosis, monitoring and management of a broad range of conditions. These innovations have the potential to improve patient care and treatment, reducing risk to patients, optimising resource allocation, and providing an improved experience for clinicians and their patients.

Artificial intelligence techniques are usually most effective when they can show transparency in their decision making. Furthermore, combinations of techniques such as neuro-fuzzy can build on the strengths of individual techniques. Adaptive systems with an ability to learn from their operating environment can assist with complex decision-making tasks, resulting in higher chances of patient surviving their trauma.

You are warmly invited to submit your original articles to the Special Issue “Artificial Intelligence Innovations and Applications in Emergency Medicine: Current and Prospects”.

an Open Access Journal by MDPI

## Editor-in-Chief

## Message from the Editor-in-Chief

*Healthcare* is an international, scientific, peer-reviewed, open access journal on health care systems, industry, technology, policy, and regulation, and is published semimonthly online by MDPI. Ocular Wellness & Nutrition Society (OWNS) is affiliated with *Healthcare* and its members receive discounts on article processing charges.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE and SSCI (Web of Science), PubMed, PMC, and other databases.

**Journal Rank:** JCR - Q2 (*Health Care Sciences and Services*) / CiteScore - Q2 (*Leadership and Management*)
