Message from the Guest Editors

This Special Issue of *Healthcare* will focus on the relationship between nutrition and maternal and child health. The research topic is focused on (1) mother nutrition and its potential influence on human milk composition; (2) child nutrition in early stages of life, and its influence on health; (3) infant formulas; and (4) nutrigenomics. Issues related to food allergies, hypersensitivity, and obesity are also welcome. This can include original research and reviews, short reports, opinions from researchers, as well as epidemiological and animal studies.
