### Message from the Guest Editor

For this Special Issue of *Healthcare*, authors are welcome to submit papers on innovative findings regarding the prevalence of metabolic syndrome, its comorbidities, risk factors, associations with mortality and survival rate, the burden of metabolic syndrome on healthcare, the management and intervention of metabolic syndrome, patient education, and other related fields of study, among people with mental illnesses. Authors are also welcome to submit papers describing the education of healthcare professionals, e.g., how nurses should prepare for the implementation of health promotion programs that help patients with both mental illness and metabolic syndrome. Different levels of professional education and patient education as well as other areas of healthcare systems may also be considered.
