Deadline for manuscript
submissions:

closed (31 July 2023)

Message from the Guest Editors

Sepsis remains the top reason for mortality and morbidity in intensive care, affecting both developed and developing countries. Despite research advancements, there is limited knowledge about medium- and long-term outcomes of the host response to bacterial, viral and parasitic pathogens.

Given the importance of the subject and success of the first edition, we would like to explore this topic further.

The second issue will be open to any subject related to the determinants, outcomes, conceptual framework, simulation, estimates and intervention related to medium-(months) and long-term (years) outcomes of a variety of pathogen–host interactions. Topics of interest include, but are not limited to, the following:

- Conceptual framework related to evolution of the pathogen–host interaction
- Determinants of the unfavorable resolution of the post-infection sequela;
- Clinical, societal and economical impact of post-infection resolution
- Disparities leading to bias in outcomes
- Comparative studies focusing on different countries and healthcare systems
- Estimates of impact
- Interventions leading to improving long-term outcome of inflammatory sequel

Nursing, University of California,
Irvine, CA 92697, USA

Message from the Editor-in-Chief

Healthcare is an international, peerreviewed, open access, multidisciplinary journal. Original research articles, short communications, review articles, and symposium highlights are welcomed.

Healthcare hopes to influence global health and disease aspects, and hopes to gain high visibility and acceptance by the scientific and healthcare community and will dedicate itself to covering special and specific topics in special issues.

We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), PubMed, PMC, and other databases.

Journal Rank: JCR - Q2 (Health Policy and Services) / CiteScore - Q1 (Leadership and Management)
